### GEORGIA SHEPARD'S ON CD-ROM

The Law Library has received the CD-Rom edition of Shepard's Georgia Citations. With the stroke of a key, you'll instantly see hardbound, annual, cumulative and advance sheet Shepard's citations in a single display. The Shepard's CD-Rom edition is updated monthly. There are no on-line charges so shepardize as many cases as you wish.

CITATION SUMMARIES

The CD-Rom edition of Shepard's has an interesting new feature...citation summaries. When Shepard's assigns a history or treatment code to a citing reference (e.g. distinguished), if the citation's treatment code is colored green, Shepard's will provide an editorial summary explaining the reasons behind the assignment. These citations summaries are only available in the CD-Rom edition of Shepard's. See the illustration above for an example of a citation summary.

The CD-Rom Shepard's Georgia Citations is available on the PC around the corner from the card catalog on the Main Floor of the Law Library. A quick reference guide is next to the PC. Shepard's Georgia Citations is easy to use. However, if you need help, the manual for Shepard's Georgia Citations is on the shelf or you may also ask a librarian for assistance.

### WESTLAW AND LEXIS PRINTING RESTRICTIONS

Due to the high volume of print requests on the Lexis and Westlaw laser printers, both companies are restricting access to these printers.

Students who print more than 75 pages per day on the laser printer will have their names submitted to Mead Data and print privileges will be suspended for 30 days. There is no limit on the number of pages which can be printed on the attached printer or downloaded to disk. The moral of the story is...choose carefully which documents you wish to print and if a document is longer than 75 pages, download it to disk.

Currently Westlaw will not allow students to print more than 200 pages per day. This restriction applies to the laser printer, attached printer and downloaded documents. If a student repeatedly attempts to print long documents, the student will be contacted by West publishing Co.

These print restrictions are not designed to punish law students. Both Westlaw and Lexis would like to encourage students to search efficiently and choose documents carefully. If you need help formulating a search request call Westlaw at 1-800-WESTLAW and Lexis at 1-800-543-6862.

### AMERICAN FOREIGN POLICY INDEX

Library patrons doing research in international law will be interested in knowing that the Law Library has purchased the American Foreign Policy Index (AFPI) and microfiche collection of documents. The AFPI

covers key unclassified foreign policy-related publications issued by the U.S. Government that describe, analyze, and record the conduct of American foreign policy and foreign relations, or provide significant information on conditions in foreign countries. The microfiche collection contains the full texts of all publications included in the AFPI.

Examples of documents which can be found in the AFPI are:

- ▶ State Dept. Daily Briefings
- ▶ U.S. Trade Representative News Releases
- ▶ Reports of Foreign Media Broadcasts
- ▶ Treaties and Conventions - texts and analyses
- ▶ White House Press Briefings
- ▶ U.S. Arms Control and Disarmament Agency texts and transcripts
- ▶ CIA Maps and Atlases

The AFPI is located on the bookcase adjacent to the microfiche cabinets on the first floor of the Law Library Annex. The microfiche collection is located in the microfiche cabinets on the first floor of the Annex under the call number MFC A15.

## WORDPERFECT 6.0 FOR DOS UPGRADE

The Law Library has upgraded the WordPerfect in the wordprocessing lab of the Annex from WordPerfect 5.1 to WordPerfect 6.0.

Key features of WordPerfect 6.0 which might be of interest to law students include:

- ▶ Graphical user interface which resembles Windows
  - ▶ Grammatik, a grammar checking program with over ten writing styles including business letter, memo, and fiction.
  - ▶ QuickFinder file management system for all of you who have searched through hundreds of files when you've forgotten the name of a file.
  - ▶ An interactive tutorial and a Coach feature to guide you through most of the commands.
  - ▶ Collapsible Outlines - edit and view all your major headings without having to scroll through your entire document.
  - ▶ Improved Envelopes feature - After you've typed a letter, simply select the Envelope feature and

WordPerfect 6.0 will automatically read the mailing address from your letter and insert it on the envelope.

## AN IMPORTANT TIP

What if you are using WordPerfect 5.1 for DOS at home but would like to use WordPerfect in the Library? It's simple! Be certain to save your document in WordPerfect 5.1 format by using the SAVE AS feature. You can pull up your document in WordPerfect 6.0 and use all of the nifty new features. WordPerfect 6.0 uses pull-down menus. Access the options under File by pressing ALT and F simultaneously. One of the options will be SAVE AS. Select this option. Be certain to select whichever WordPerfect version you desire...WordPerfect 4.2 or WordPerfect 5.0/5.1.

## SUPREME COURT TRIVIA CONTEST

In honor of the beginning of the U.S. Supreme Court term, match the Justices with their first jobs out of law school. (Answers below.)

1. Assistant Attorney General, Missouri Attorney General's Office
