

OBTAINING REMOTE ACCESS TO LICENSED DATABASES

Research Resources

Many databases can be accessed at home through the Library's RESEARCH RESOURCES page, located at <http://www.law.uga.edu/library/index.html>. Most do not require a database password, but the user's identity must be checked to verify that the access is authorized. When attempting off-campus access, the user is prompted for his or her name and patron ID number. This is the same process required to access e-reserves.

GALILEO

To access GALILEO off-campus, you will need the latest password. To obtain this password, follow these steps:

- 1) Go to GIL, the main library's online catalog at <http://gil.uga.edu/> or <http://www.libs.uga.edu/> and select "Get Galileo Password".

- 2) Choose either UGACard BARCODE NUMBER (the 16-digit number printed on the front of your UGACard), or SOCIAL SECURITY NUMBER from the drop box.
- 3) Input number and last name.

REMEMBER TO LOGOUT OR CLOSE THIS BROWSER AFTER ACCESSING YOUR ACCOUNT.

Home Institution:

UGACard Barcode Number

Last Name:

- 4) Select LOGON, which will retrieve the latest Galileo password. Input this password when prompted while attempting off-campus access.
