**IN RE APPLICATION OF UNITED STATES OF AMERICA FOR AN ORDER PURSUANT TO 18 USC § 2703 (D)**
Katz v. United States, 389 US 347 - Supreme Court 1967

389 U.S. 347 (1967)

KATZ
v.
UNITED STATES.

No. 35.

Supreme Court of United States.

CERTIORARI TO THE UNITED STATES COURT OF APPEALS FOR THE NINTH CIRCUIT.

Burton Marks and Harvey A. Schneider argued the cause and filed briefs for petitioner.

John S. Martin, Jr., argued the cause for the United States. With him on the brief were Acting Solicitor General Spritzer, Assistant Attorney General Vinson and Beatrice Rosenberg.

MR. JUSTICE STEWART delivered the opinion of the Court.

The petitioner was convicted in the District Court for the Southern District of California under an eight-count indictment charging him with transmitting wagering information by telephonic conversation from Los Angeles to Miami and Boston, in violation of a federal statute. At trial the Government was permitted, over the petitioner's objection, to introduce evidence of the petitioner's end of telephone conversations, overheard by FBI agents who had attached an electronic listening and recording device to the outside of the public telephone booth from which he had placed his calls. In affirming his conviction, the Court of Appeals rejected the contention that the recordings had been obtained in violation of the Fourth Amendment, because "there was no physical entrance into the area occupied by [the petitioner]."

We granted certiorari in order to consider the constitutional questions thus presented.

The petitioner has phrased these questions as follows:

A. Whether a public telephone booth is a constitutionally protected area so that evidence obtained by attaching an electronic listening recording device to the top of such a booth is obtained in violation of the right to privacy of the user of the booth.

B. Whether physical penetration of a constitutionally protected area is required before the possibility of obtaining evidence in violation of the Fourth Amendment is created.
