Health and Safety: Protocol for Students at UGA Law

Your guide for what to do if you have been exposed to COVID or test positive.

Student with COVID-19 Symptoms

Symptoms Include:
Fever (100.4 or >), Chills, Cough, Shortness of Breath, Muscle Aches, Headache, Loss of Smell or Taste, Fatigue, Sore Throat, Runny Nose, Nausea, Vomiting and Diarrhea

NOTE: The symptoms you experience should not be related to existing medical conditions, specific activity, or other known causes. Pay attention to symptoms like a cough that are new or worsening, recent decreases in sense of smell or taste, new muscle aches, or new onset of fatigue.

Stay Home or Leave UGA Campus and Alert Professors and Casey Graham

Recommended to Log Using DawgCheck

Schedule a Test

Contact the University Health Center for a free test (706-542-1162) or your personal Healthcare Provider.

Optional Virtual Attendance

If your health allows, you may attend class virtually. Adjustments to attendance policy reflect the prioritization of health and safety.

Negative Test

A Healthcare Provider decides when an individual can return to campus.

Positive Test

Required to Log Using DawgCheck

Return to Campus

only if all are true:

- after 10 days from onset of symptoms
- no fever for 24 hours (without fever-reducing medication)
- symptoms are improved

For Mild Symptoms

If Symptoms Worsen

Isolate at Home

10 days from onset of symptoms.

Contact Your Professors & Casey Graham

Follow Healthcare Provider's guidance. You may need to seek emergency care.

Student Exposed to COVID-19 Positive Individual

The CDC has defined presumptive exposure as being within six feet of someone for 15 minutes or longer (whether or not wearing a mask).

Required Quarantine 14 Days and Alert Professors and Casey Graham

Remain home, avoid congregate settings, public activities, and practice social distancing. If your health allows, you may attend class virtually. Adjustments to attendance policy reflect the prioritization of health and safety.

Required to Log Using DawgCheck

NOTE: The symptoms you experience should not be related to existing medical conditions, specific activity, or other known causes. Pay attention to symptoms like a cough that are new or worsening, recent decreases in sense of smell or taste, new muscle aches, or new onset of fatigue.

No Symptoms

If Symptoms Develop, Including

Fever (100.4 or >), Chills, Cough, Shortness of Breath, Muscle Aches, Headache, Loss of Smell or Taste, Fatigue, Sore Throat, Runny Nose, Nausea, Vomiting and Diarrhea

Negative Test

Positive Test

Continue 14 Days Quarantine at Home

Schedule a Test With University Health Center or Healthcare Provider

Required to Log Using DawgCheck

After completing 14 days of quarantine, then return to normal activities and campus.

Return to Campus

For Mild Symptoms

after 10 days from the onset of symptoms, if no fever is present for 24 hours (without fever-reducing medication), and symptoms are improved.

Isolate at Home 10 days from onset of symptoms.

Continue Monitoring Symptoms

Symptoms Worsen

Follow Healthcare Provider's guidance. You may need to seek emergency care.
